

Amr Oraby

Frontend Developer

Mansoura, Egypt | +20 115 170 8590 | amrorapy50@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer specializing in React and Next.js, focused on building secure, scalable, and well-structured web applications. Experienced across the full stack of modern frontend engineering, from authentication and API integration to typed, production-grade component architecture.

PROFESSIONAL EXPERIENCE

Frontend Developer (Freelance) | Isaria Perfume

Project: Isaria Perfume — E-commerce Platform & Admin Dashboard | [Link](#)

- Delivered a production e-commerce platform for a live client, deployed under a custom domain, built with Next.js, Tailwind CSS, and Shadcn UI, with a highly responsive, mobile-optimized interface.
- Built a companion admin dashboard in React for full store management, including orders, product catalog, UI content, and site sections.
- Integrated Supabase for backend data and storage, with attention to query performance and data security throughout.
- Wrote automated tests to validate core flows and implemented production-grade security practices before handoff to the client.

Frontend Developer | Al Almiya Alhura

Project: Almoatamer — Umrah Booking Platform | [Link](#)

- Built a full-featured Umrah booking platform with a PHP backend, implementing authentication via a server-issued JWT stored in an HTTP-only cookie to prevent client-side token exposure.
- Implemented registration and login flows including Google and Facebook OAuth, alongside a full-featured admin dashboard for managing bookings, users, and site content.
- Integrated MyFatoorah for online payment processing across the booking flow.
- Built a fully responsive experience across mobile and desktop for both the client-facing site and the admin dashboard.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks / Libraries: React.js, Next.js, Redux Toolkit, React Query, React Router, React Hook Form

Styling / UI: Tailwind CSS, Shadcn UI, Styled Components, CSS Modules, Bootstrap

Backend / Tools: Supabase (Auth, Database, Storage), NextAuth, REST APIs, Socket.io, Zod, Postman, Git, GitHub, Slack

Testing / Build: Vite, React Testing Library, Vitest

Concepts: Component Architecture, State Management, Role-Based Access Control, Responsive Design, OOP, Data Structures & Algorithms

LANGUAGES

Arabic (Native) | English (Professional Working Proficiency)
